Ecommerce Carts: Adding Connection Settings

Last Modified on 08/03/2026 4:33 pm EDT

Adding Connection Settings

After you have generated the credentials for the Cart that you selected, enter the appropriate connection settings for your Cart in Order Time. Refer to Generating Connection Credentials for the instructions on how to generate connection credentials.

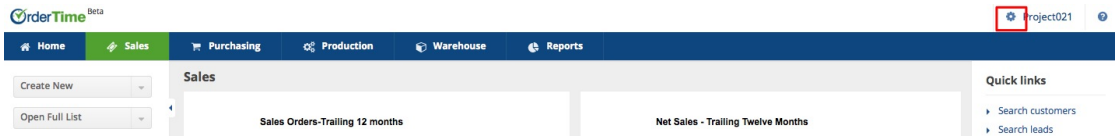

E-commerce Integration Considerations

Before the setting-up your e-commerce integration, ensure that you have the following:

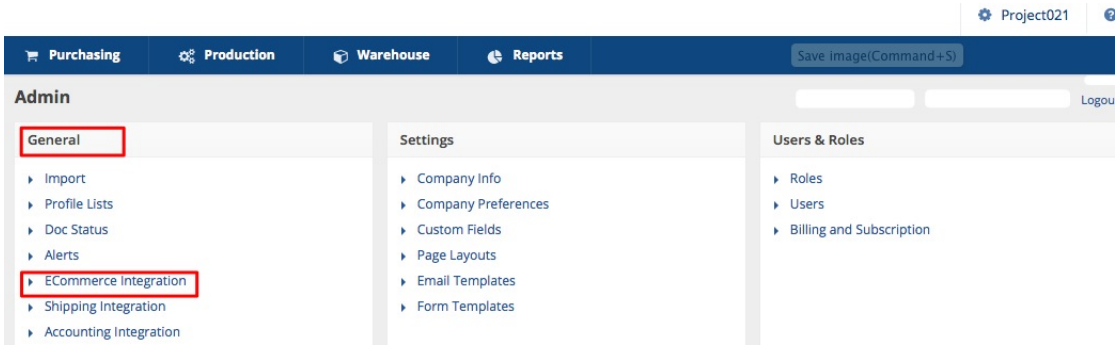

- Your own business website
- You have generated the connection settings

To start adding and testing the connection settings:

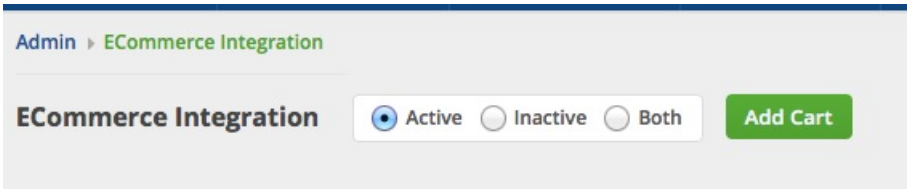

1. Click on the ***Gear*** icon to access the *Admin* screen.

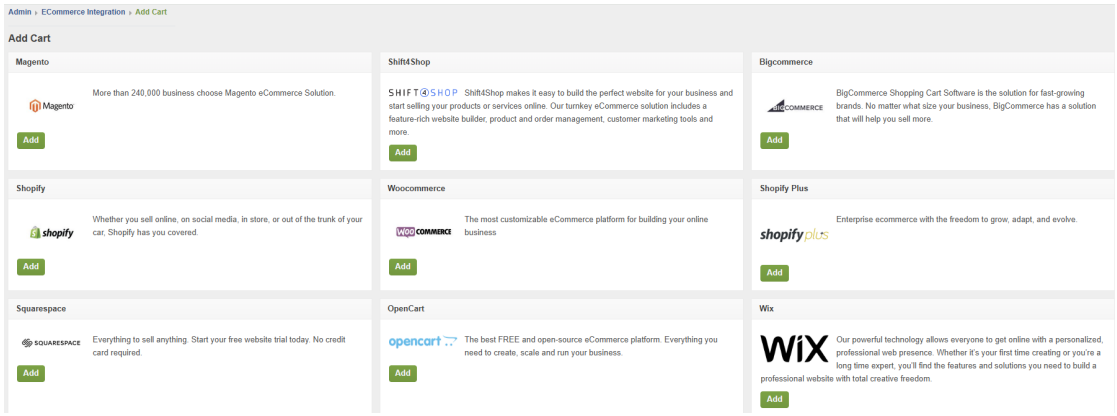

2. Click **Ecommerce Integration** under the *General* section.

3. Select **Active** and click the ***Add Cart*** button.

4. Select the e-commerce cart that you want by clicking the ***Add*** button.
5.

6. In the *ECommerce Integration Editor* page, enter and set the connection settings in the *General* tab.
7. Follow the steps in our specific guides for the adding and testing the connection settings for your specific cart.
