Contact

Last Modified on 07/09/2025 1:45 pm EDT

Contact Object

Contact is a Child object of Customer and Lead.

- End Point
- Properties
- Json Sample

End Point

/contact

GET, POST, PUT, DELETE

GET and DELETE requests expect parameter id of type Int32.

Inviting/Revoking Access to the B2B Portal for a Contact via the API (Version 1.0.39 or higher)

POST: E.g /contact/B2BAccess?id=3&grant=true&orderSourceId=5

- id: The Id of the contact in Order Time.
- grant:true for invites, false to revoke
- orderSourceId: the id of the B2B portal which you can see when you click 'Configure' e.g. https://app.ordertime.com/b2b/Edit/**5**
