Payment Gateway - Payeezy

Last Modified on 02/26/2024 1:59 pm EST

Overview

To process credit cards with the software, you **MUST** have an open account with a credit card processing company.

Entering a Payment Gateway

Before you begin selling, you need to list all of the payment processing gateways that you have accounts with by entering your log in information for those accounts on the *Payment Gateways* menu screen (Admin --> Profile List --> Payment Gateway)

The available Gateways are located on the left side of your screen, while the Gateway details appear on the right.

		AIMHashSecr	et		
		(Optiona	al)		
		Emulator UI (Optiona	al)		
		Reque Authorize.Net email receipts custome	to		

You first need to give the Payment Gateway a *Name*, Select if the Gateway is *Active* and if the Gateway is the *Default* Payment Gateway and then select your credit card processing company (Gateway Type) from the drop down list.

If you have multiple payment gateways, there is an option within the payment entry screen, in the Sales order and Ship Doc, that will allow you to select the gateway when receiving the customer's payment.
