

Move line is no longer visible

Last Modified on 04/16/2024 3:06 pm EDT

In order to sort / move lines on a sales order or quote, the 'View Type' must be set to 'Matrix View'

The screenshot displays a sales order interface for 'Sales Order - 1124'. The interface includes sections for General, Bill Address, Ship Address, and Summary. A 'List Options' dialog box is open, showing settings for 'Records per page' (20), 'Sort By' (Item), and 'View Type' (Matrix View). The 'View Type' dropdown is highlighted with a red box. The background shows a table with columns for IMAGE, LINE NO., ITEM, TAX CODE, AVAILABLE, PACK SIZE, PACKS, and ACTIONS.

IMAGE	LINE NO.	ITEM	TAX CODE	AVAILABLE	PACK SIZE	PACKS	ACTIONS
	1	102	Tax	502.00			☑ ⚙ ↕
	2	A100001	Non	453.00			☑ ⚙ ↕
