

Using Quick Build for Work Orders from a Sales Order

Last Modified on 06/02/2020 2:41 pm EDT

Quick Build is a convenient feature that has been added for quickly creating a Linked Work Order that is then automatically fulfilled.

During Quick Build the Work Order is **completed immediately** as long as there is sufficient inventory for the creation of the final product.

You can find the Quick Build button under the Dependency Tab within a Sales Order

The screenshot shows a web application interface for a Sales Order. At the top, it displays 'Sales Order - 1237' with a 'TRANSFER' button and options for 'Create PDF' and 'Print Label'. The status is 'Approved'. The interface is divided into several sections: 'General' (No. 1237, Customer: 1111 Nelson Brothers, Date: 6/2/2020), 'Bill Address' (1111 NELSON BROTHERS, 2580 WYATT STREET FLOOR/SUITE, WEST PALM BEACH, FL 33404), 'Ship Address' (1111 NELSON BROTHERS, SHIP 2580 WYATT STREET SHIP FLOOR/SUITE, WEST PALM BEACH, FL 33021, US), and a 'Summary' table. Below these is a navigation bar with tabs: 'Items', 'Details', 'Memo & Instructions', 'Custom', 'Payments', 'Ship Docs', 'Dependency' (highlighted), 'Attachments', 'Open Activities', and 'Activity History'. Under the 'Dependency' tab, there are three buttons: 'Linked PO', 'Linked WO', and 'Quick Build'. Below the buttons is a table with columns: 'NO.', 'TRAN TYPE', 'RELATED TO ENTITY NAME', 'RELATED TO ENTITY TYPE', 'DATE', and 'MEMO'. The table contains one row: NO. 332, TRAN TYPE Work Order, RELATED TO ENTITY NAME Internal, RELATED TO ENTITY TYPE Company, DATE 6/2/2020.

NO.	TRAN TYPE	RELATED TO ENTITY NAME	RELATED TO ENTITY TYPE	DATE	MEMO
332	Work Order	Internal	Company	6/2/2020	

As you can see, once the button is clicked a Linked Work Order is created and the Work Order is fulfilled ASAP. If this Work Order creates an Item with a Serial or Lot Number then it will be automatically applied.

If the Work Order can not be fulfilled it remains in the Waiting Status until sufficient inventory is available. Then it will have to be manually swapped through the Statuses to be fulfilled and Finished.
