

Payment Error: Do Not Honor

Last Modified on 06/12/2020 3:46 pm EDT

Payment System Error

When I am trying to put a credit card payment through, an error is coming up saying: "Do not Honor"

Solution

A Declined - **Do not honor** notification is a request status associated with the 20005 response code, and it means that the customer's card issuing bank has declined the payment.

This is the most common message provided by card-issuing banks when a payment fails their authorization process.
