- Scanning in the Browser window
  - Company Preferences > Shipping
    - Uncheck the first Shipping preference so that it won't automatically add.
  - New Sales Order, add the items, approve the Sales order
  - Create a Ship Doc
    - You can check the scan box and scan right into the text box
    - If you're using a regular USB scanner you can scan one-by-one
    - Be mindful of your lot & serial numbers
- You can scan Line Items into a Work Order as well to add quantities
- You can use GS1 barcodes with Work Orders, but email support about it, we have to set a few things up on the back end.
