

Bill Of Materials (BOM)

Last Modified on 07/24/2020 12:58 pm EDT

Bill Of Materials Object

The **Bill of Materials** or **BOM** is like a recipe, it tells the system which components are required to make the finished good

End Point

/bom

GET

Use the BOM ID

e.g. <https://services.ordertime.com/api/bom?id=12>

Or use the Item Id and Named revision

e.g. <https://services.ordertime.com/api/bom?itemId=12&name=Default>

You can also pass an empty string for name
