Order Time Mobile - [VIDEO] Creating a Bin Move

Last Modified on 11/03/2026 7:18 pm EST

> **Note:** This video shows an older version of the app, when it was called Order Time Warehouse, so some screens and labels look different today. For current steps, use the written Order Time Mobile articles. We plan to record new videos.

Here's how to create a Bin Move in Order Time Warehouse, learn how to:

- Set the 'From' Bin
- Set the 'To' Bin
- Choose your Item
- Set the Lot/Serial Number
- Choose the Quantity
- View your Bin Moves in the List View
- Upload the Bin Moves which creates an Adjustment that you can view in Order Time.
