## Newest Features for the Order Time Mobile App

- [Here is the main OT Mobile Hub](#)
  - [Overview and Preferences](#)
  - [Sales Orders & Picking](#)
  - [Ship Docs & Packing](#)
  - [Receiving Purchase Orders](#)
  - [Creating a Bin Move](#)
  - [Releasing Sales Orders](#)
- To watch the introduction to the new Count feature, check out the webinar itself!
- During the webinar we referenced some preferences
  - **Head to Admin > Company Preferences > Mobile**
    - This is where you activate the mobile app and set some scanning preferences and requirements
  - **Also in Admin > Company Preferences > Lot / Serial #s > Getting Available tab**
    - This is where we set the initial quantity when selecting an available lot/ser #
    - The setting we chose was 'The quantity ordered. If no quantity ordered then the total available quantity.'
