

Order Time Mobile - Compatible Hardware List

Last Modified on 01/15/2025 11:47 am EST

The Order Time Mobile app is a powerful tool that helps you manage your warehouse inventory with ease. To ensure the app runs smoothly on your mobile device, it's important to have compatible hardware. In this article, we provide a list of hardware that is compatible with the Order Time Mobile app, including iPhones, iPads, iPod touches, and Android devices. We also provide information on how to purchase new hardware and share tips on improving Wi-Fi connection in your warehouse. If you have any feedback or comments, please send them to support@ordertime.com.

While we support both the Android and iOS versions **we recommend choosing the Apple iOS Version**

- iPod touch (7th generation)

Mac

- Requires macOS 11.0 or later and a Mac with Apple M1 chip or later.

Android

- Any device running Android OS 8.0 and up.

Some of the modern UI elements and features we use in the app are not fully supported on OS versions below 12.0. These can range from alignment problems, differences in color rendering, to more complex layout issues such as the orientation display issues and the scanner not automatically focusing into the entry boxes.

Purchase New Hardware

Utilize our hardware partner, [ShopPOSPortal](#)

Wi-Fi strength may differ based on the warehouse size, materials, and other factors. If you run into any issues with your Wi-Fi connection as you walk through your warehouse, our suggestion is to place Wi-Fi Extenders at key points to bridge the gap in service.

Feedback and Comments
