Version 1.0.32

Last Modified on 06/30/2026 1:41 pm EDT

Version 1.0.32 - Released May 20, 2022 - Known issues fixed, improvements and new features added as follows:

> **Note:** Some of these changes were implemented as **Hot Fixes** during the development cycle. They were fixed on separate dates, but weren't published about until the official release. Our development team is constantly releasing new changes to better serve great customers like you!

#	Changes	Revision
1	ADDED	**Custom List Views** - The ability for Order Time users to save custom list columns and filters on record screens for future use
2	ADDED	New Button on the Sales Order, **Select Items to Ship**
3	ADDED	Create "**Can Make**" Reports in the Report Builder
4	ADDED	Extended **Accounting Integration Role Restrictions** (Disallows the Role's ability to Un-Sync/Remove from Sync)
5	ADDED	New Button to **Close an Open Sales Order** from a Ship Doc
6	ADDED	Added a preference to **automatically allocate** orders. Ideal for synced orders from another sales platform
7	ADDED	**Quick BoM Report**: New Button for Assemblies on a Sales Order or Quote line item to quickly see the Bill of Materials and their Inventory Status
8	ADDED	**Global Search** (BETA)
9	ADDED	Create a **Period Closing Date** to Lock Transactions (Locks the Undo Transaction Ability)
10	ADDED	New Button - **Recalculate Pricing on the Sales Order** when the Price Level for a Customer Changes
11	ADDED	Ability to create **Vendor RFQs** - Request For Quote
12	ADDED	Control the ability to view Item Stats, controlled via Role Exceptions on either Inventory or Inventory by Location Status
13	ADDED	Work Order Component Import
14	ADDED	Added the Location Filter to the **Reorder Analysis for Production**
15	ADDED	Ability to move line items up and down for the Receiver
16	ADDED	Ability to move Components up and down on Work Orders and Disassemblies
17	ADDED	Ability to change the Work Order or Purchase Order Status on the Sales Order Dependency tab

18	ADDED	On the Create New Batch Fulfillment screen you can now filter by any Status with the type of Approved
19	ADDED	Beta version of our integration with OpenCart Ecommerce
20	ADDED	Added Invoice Date field for Value Adjustment. This field is used when a Bill is created in accounting
21	ADDED	Add items to an Open Receiver and choose which Purchase Order to link
22	ADDED	New Preference in General > Advanced, Clear custom field data when duplicating a document (Quotes, SO, PO, Customer, Item)
23	ADDED	When creating linked Work Orders from a Sales Order there is a checkbox to pre-populate the quantities
24	ADDED	Two new Date Filters added to Reports - Tomorrow & Specific Days of the Week
25	ADDED	Added an Image Column to the Items tab on a Vendors page
26	ADDED	Ability to map the standard SKU in QuickBooks to a Custom Field from the Accounting Import
27	ADDED	New Preference: Load Can Make on Sales Order and Quote Line Items. Use the Can Make Column on those documents
28	ADDED	Ability to see the Associated PO Number when looking at the Receivers Tab on a specific Vendor (Column needs to be added)
29	ADDED	Ability to add a Class on Items within the Sales Order
30	ADDED	New Preference: Change (Purchase Order) status to Sent after sending an email
31	ADDED	Ability to create linked Purchase Orders from a Repair Order, to purchase items needed for a repair
32	ADDED	New Import: Import Price Levels by Item for bulk purchases
33	ADDED	Ability to set a different Unit of Measure for each Vendor on the Item-Vendor tab
34	ADDED	New property in the B2B Config to Include Can Make products
35	ADDED	New Preference: Turn off autocomplete hover selection
36	ADDED	New Alert for changes in Promise Dates, if that happens, a task / event is created with the due date of the Promise Date
37	ADDED	Ability to select the BoM Version for Linked Work Orders
38	ADDED	Ability to see the Payment Source for a Payment on the Payment List (Helps for Ecommerce Users)
39	ADDED	New API Endpoint: BoM Component
40	ADDED	New API Endpoint: Ship Doc Line Item
41	ADDED	New API Endpoint: Ship Doc Package (Package info only, no item or details)
