

# Kit Wizard - BETA

Last Modified on 05/20/2025 12:06 pm EDT

## Kit Wizard

The Kit Wizard end point allows you change the selections on a sales order or quote having kits or config boms.

- [End Point](#)
- [Properties](#)
- [Json Sample](#)

### End Point

/kitwizard

GET, PUT

GET requests expect parameters tranType of type RecordTypeEnum and lineId of type Int32.

[Top](#)

### Properties (All Required)

Property	Data Type
TranType	RecordTypeEnum
LineId	Int32
KitComponentId	Int32
KitSelectionId	Int32
QuantityPer	Decimal
PricePer	Decimal

[Top](#)

You use the same method to select and de-selected. In otherwords, if the selection was already selected, this method will de-select it.
