Importing - Consignment Line Item

Purpose:

This import is designed to add lines or update existing lines on an consignment. For this to work The Consignment MUST already exist so that the Consignment number can be added as a field on the import template.

Required Fields:

- New lines: No. (DocNo), Item, Bin, Lot/Serial number
- Existing Lines: N/A

Mapping Tips:

- ID = Line Item ID
- Cost or EXT should be included. Cost for new inventory quantities will become the Qtys Value.
