

# Importing - Consignment Line Item

Last Modified on 03/23/2026 8:46 am EDT

## Importing - Consignment Line Item

### Purpose:

This import is designed to add lines or update existing lines on an consignment. For this to work The Consignment MUST already exist so that the Consignment number can be added as a field on the import template.

### Required Fields:

- New lines: No. (DocNo), Item, Bin, Lot/Serial number
- Existing Lines: Line Item ID -- and the field(s) that need updateing

### Mapping Tips:

## Import

Save Mapping

File Columns	System Columns
<b>Id</b>	Id
<b>No.</b>	No.
<b>Item</b>	Item
<b>Quantity counted</b>	Counted
<b>Bin</b>	Bin
<b>Lot/Serial</b>	Lot / Serial Number

Start Import

Delete

- ID = Line Item ID
- Cost or EXT should be included. Cost for new inventory quantities will become the Qty Value.
