

# Importing - Item Images

Last Modified on 03/29/2026 8:15 pm EDT

## Importing - Item Images

### Purpose:

The Item Images import is designed to add images to items. This is done using the web image address only.

See this KB article for Step by Step: <https://help.ordertime.com/help/importing-item-images>

### Required Fields:

- New records: Item, Is Web Resource, Name
- Existing Lines: ID, Name

### Mapping Tips:

- Is Web Resource = True
- Name = Actual web image address itself.
